# HINTERLAND Vitality Check

## Examples from typology: *Type 3. Pogranichnaya Volost, Russia*

### *Pogranichnaya Volost*

Number of inhabitants: 614

Name of Municipality:

Krasnogorodskiy District

Vorderland distance: 12 km.

Project part-financed by the European Union (ERDF + TACIS) within the BSR INTERREG III B NP programme

## We are Type 3!

What does it mean for our village and what do we have to do?

### Strengthen the strengths!

- 1. To increase the volume of extraction of local construction materials including the ones for road building*
- 2. To organize the production of construction materials for building and restoring the roads including the roads on the territory of the district*
- 3. To develop culture tourism*
- 4. To develop small and medium enterprises by selling the land individual entrepreneurs, enterprises and organizations of different kinds of property*
- 5. To develop flax cultivation*

### Reduce the risks!

- 1. Decrease in population (by 17% for 4 years)*
- 2. Increase in number of the unemployed (the number of registered unemployed comprise 30.6% of the number of economically active population)*
- 3. Low level of economic and entrepreneurships (the volost counts 2 medium enterprises where 34 people work, 1 farm. The main part of economically active population works for farms)*
- 4. Low level of development of social sphere (there is only 1 educational institution with 70 people willing to get education, 4 institution of culture and 2 medical points for 29 villages)*
