HINTERLAND Vitality Check

Examples from typology: *Type 3. Vasilievskaya Volost, Russia*

Vasilievskaya Volost

Number of inhabitants: 635
 Name of Municipality: Palkinskiy District
 District
 Vorderland distance: 10 km.

Project part-financed by the European Union (ERDF + TACIS) within the BSR INTERREG III B NP programme

We are Type 3!

What does it mean for our village and what do we have to do?

Strengthen the strengths!

- 1. To use the natural resources more efficiently*
- 2. To develop agriculture and raise the incomes from this branch in the budget of the volost*
- 3. To develop different kinds of tourism (sport, recreational, pilgrims)*

Reduce the risks!

- 1. Decrease in population (by 6.6% for 4 years)*
- 2. Increase in number of the unemployed (the number of registered unemployed comprise 12% of the number of economically active population)*
- 3. Low level of economic and entrepreneurs (the volost counts 6 small enterprises where 34 people work, 1 farm. The main part of economically active population works for farms)*
- 4. Low level of development of social sphere (there is only 1 educational institution, 2 institution of culture and 2 medical points for 60 villages)*
