

Project part-financed by the European Union (ERDF + TACIS) within the BSR INTERREG III B NP programme

We are type Nr. 6! What does it mean for our village and what do we have to do?

Strengthen the strengths!

Demography

- *In the sub-district live 3626 residents,*
- *There is a high disproportion by sex.*
- *Therefore it would be required to establish businesses to attract men to live in Kražiai.*

Economy

- *Several business enterprises perform their activities,*
- *Bio-fuel is produced of wooden waste.*
- *1052 farms are registered in the sub-district.*
- *It would be required to stimulate amalgamation of farms, to encourage non-traditional cultures.*

Social life

- *Active activities of communities.*
- *Kept deep cultural traditions.*
- *Significant cultural events are being held. .*

Reduce the risks!

- *High sexual disproportion of population may intensify demographical threats.*
- *The population in Kražiai decreases, therefore it is required to use an exceptional strength of this sub-district – to establish favourable conditions to tourism, to develop the infrastructure of tourism.*
- *Without increase of the number of workplaces, there would not be any perspectives to youth and women to join the labour market.*
- *Social risks may be minimised developing crafts and tourism. It will attract young people to the sub-district.*
