HINTERLAND Vitality Check

Examples from typology: *Type 9. Gavrovskaya Volost, Russia*

Gavrovskaya Volost

Number of inhabitants: 1235

Name of Municipality: Pytalovskiy District

Vorderland distance: 25 km.

Project part-financed by the European Union (ERDF + TACIS) within the BSR INTERREG III B NP programme

We are Type 9!

What does it mean for our village and what do we have to do?

Strengthen the strengths!

- 1. Economic direction (to raise the efficiency of use of natural resources, to develop infrastructure, to develop different kinds of tourism)*
- 2. Social direction (to create new working places, to raise real incomes of the population)*
- 3. Environmental direction (to work out the program for environmental protection connected with growth of traffic flow through the border crossing point "Ubylinka")*
- 4. International direction (to develop relations with Malnava, Latvia)*

Reduce the risks!

- 1. Decrease in population (by 3.8% for 4 years)*
- 2. Increase in number of the unemployed (the number of registered unemployed comprise 26.8% of the number of economically active population)*
- 3. Low level of economic and entrepreneurships (the volost counts 1 medium enterprises where 42 people work, 6 small enterprises. The main part of economically active population works for farms)*
- 4. Low level of development of social sphere (there is only 2 educational institution with 170 people willing to get education, 2 institution of culture, 2 medical points, 1 bank department for 63 villages)*
